Summary

UI/UX designer and frontend developer with hands-on experience crafting intuitive interfaces, interactive prototypes, and responsive web applications. Adept at translating user needs into elegant, accessible designs using Figma and Adobe Illustrator, and bringing them to life with React and TailwindCSS. Passionate about design systems, user-centered thinking, and creating experiences that delight.

Experience

Product Design & IT Intern – Airtel Nigeria July 2025 – September 2025

- Designed and developed a full-stack project & task management application with an emphasis on intuitive UX, featuring projects, tasks, checklists, and dependencies – built with React and TailwindCSS for adoption across Airtel Nigeria departments.
- Leveraged AI-assisted coding tools (Cursor AI) to accelerate frontend development cycles, improving code quality and design-to-code fidelity.
- Contributed to USSD service design and implementation, improving service reliability and the experience of millions of daily users.

UI/UX Design & Frontend Development Intern – Product Studio HQ July 2024 – September 2024

- Led end-to-end UI/UX design for a non-profit organisation's website: conducted user research, created wireframes and high-fidelity Figma prototypes, and iterated based on stakeholder feedback to enhance online presence and user engagement.
- Designed a comprehensive Figma prototype for a wealth management application targeting high-net-worth individuals, defining information architecture, interaction patterns, and a consistent visual design system to streamline asset, investment, and liability management.
- Translated designs into production-ready, responsive websites using React (TypeScript) and TailwindCSS, deployed via Vercel, ensuring pixel-perfect implementation and seamless cross-device experiences.

Media & Creative Intern – City Church Lagos August 2023 – September 2023

- Designed promotional graphics and visual content for the organization's social media platforms using Adobe Illustrator, maintaining brand consistency across all materials.
- Shot and edited photography for events and services, producing polished visual assets for print and digital use.
- Edited video content for recaps, highlights, and promotional materials distributed across social channels.
- Provided creative direction for media productions, coordinating visual style and ensuring cohesive storytelling across formats.
- Managed live streaming operations for services and events, overseeing technical setup and real-time broadcast quality.

Education

Bachelor of Science: Computer Science October 2022- Expected 2026

Pan-Atlantic University – Ibeju-Lekki, Lagos | GPA: 4.56/5.0 (First Class)
Relevant coursework: Systems Analysis and Design, Web & Mobile Development, Human-Computer Interaction (HCI), Introduction to Artificial Intelligence, Object Oriented Programming, Database Management, Discrete Structures, Compiler Construction.

High School Diploma October 2014 - December 2020

Soleil High School – Surulere, Lagos

Skills

Design Tools: Figma, Adobe Illustrator, Adobe Lightroom

UI/UX Skills: Wireframing, Prototyping, User Research, Information Architecture, Design Systems, Responsive Design

Frontend Development: React, React Native, TypeScript, JavaScript, TailwindCSS, HTML/CSS

Programming: Python, Rust, Java, C++, Linux

Backend & Databases: NestJS, PostgreSQL

Dev Tools: GitHub, VS Code, Apache NetBeans, Cursor AI

Soft Skills: Communication, Problem-solving, Cross-functional Collaboration, Critical Thinking

Languages: English (Native), Spanish (Intermediate – 3+ years, Duolingo)
